

Electrocardiography (EKG)

50 hours

Overview:

This program will prepare graduates to work as an entry-level **EKG Technician** in a clinic, hospital, nursing home or long-term care facility. Graduates will be able to check vital signs, assist in performing electrocardiograms (EKGs).

This course is designed to meet the National Health Career Association (NHA), NCCT, and New York State Education Department curriculum requirements. The course will prepare graduates for **National NHA Professional Certification – Certified EKG Technician (CET)**.

The course includes both theory and clinical training.

The course curriculum is approved by the New York State Education Department, by NCCT, and by National Health Career Association (NHA).

The course provides an overview of basic cardiovascular terminology anatomy and physiology and focuses on proper placement of electrocardiogram (EKG) leads and maintenance of equipment to obtain an accurate EKG. Students will learn to recognize cardiac arrhythmias. This course will outline responsibilities of EKG technicians and will provide clinical laboratory opportunity to develop entry-level skills.

This course is offered as continuing education or professional development course to participants in order to enhance existing employment in the medical field.

Who Should Attend?

This course is designed for those (men and women) looking for employment as EKG Technician, and is recommended for all students considering nursing careers. Combination with the **Phlebotomy program and with CNA program** will allow graduates to work as an entry-level **Patient Care Technician** in a clinic, hospital, nursing home or long-term care facility.

What is included:

- 1. EKG Textbook, uniform**
- 2. PREPARATION FOR CERTIFICATION EXAM – NHA CERTIFIED EKG TECHNICIAN (CET)**
- 3. NHA Exam is scheduled to be taken on our site because we are NHA Approved Testing Center**

Schedule:

Monday – Friday 8:00 am – 1:00 pm or 1:00 pm – 6:00 pm, or Monday – Thursday 6:00 pm – 10:00 pm
